

# 60cm Series 9 Integrated Beverage Centre

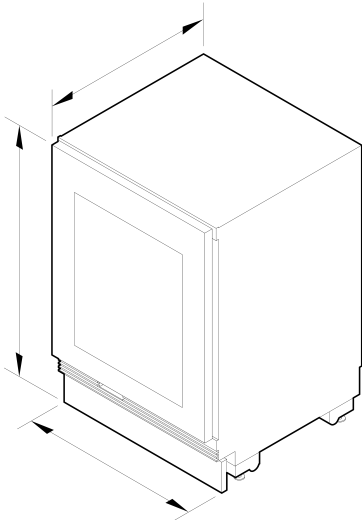

Series 9 | Integrated

Elevate your drinks storage with our Integrated Beverage Centre. Ideal for wine, craft beer and more, it's perfect for any space within your home.

- Integrates into any setting within the home, from the bar to the master suite – the choices are endless
- Spacious 129L capacity, with full-depth wine shelf that can accommodate up to seven bottles
- Adjustable temperature control helps to keep drinks at the ideal temperature
- Designed to fit flush, with 4mm gaps and no visible hinges or grilles

## DIMENSIONS

Height	864 - 900 mm
Width	592 mm
Depth	576 mm

## FEATURES & BENEFITS

### Complete Design Freedom

This versatile under-counter beverage centre brings increased cooling capability to any space, from kitchens to home bars, rumpus rooms to home cinemas. Compact and stylish, it pairs perfectly with our under-counter wine cabinet to create an entertainer's dream set-up.

### Customised Drink Storage

The beverage centre is designed to store a selection of beverages, from cans to beer bottles, or bottles of wine in a custom rack. Full extension shelving makes it simple to see and select between a pale ale or pilsner, sauvignon blanc or chardonnay.

### Flexible Storage

The beverage rack includes a slideable shelf divider that moves to securely hold bottles and cans to avoid tipping, or can be removed for large items. The custom wine rack carefully cradles and displays up to seven bottles of wine.

### Precise Temperature Control

Set the temperature in each zone between 2°C and 14°C depending on your needs, or use one of our five preset modes: Fridge, Beverage, Sparkling, White Wine or Pantry to store a range of drinks at the ideal temperature.

### Seamless Fit

The beverage centre is designed to fit flush, with only 4mm gaps between surrounding cabinetry, and no visible hinges or grilles.

### Intuitive Control

Temperature control at your fingertips. Adjust the temperature of your beverage centre through intuitive touch controls, or remotely using the SmarthQ™ app through Wi-Fi connectivity.

### Custom Door

A tempered glass door allows you to monitor your drinks selection and restock when necessary. Also available is a panel-ready model, which allows your beverage centre to be hidden seamlessly behind your custom cabinetry.

## SPECIFICATIONS

### Accessories (included)

- Hinge change (from left hinge to right hinge)

### Accessories (sold separately)

Consumption		Power requirements		Where applicable:
Energy usage	71 kWh/year	Amperage	10 A	All appliances use energy, and energy usage typically generates carbon emissions. <b>Fisher &amp; Paykel Appliances' In-use Energy Carbon Emissions Estimate</b> indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.
		Supply frequency	50 Hz	
		Supply voltage	220-240 V	
		Product dimensions		
Controls		Depth	576 mm
